# INTRODUCTIONS

Cryptomagz " DECENTRALIZED OF CRYPTOCURRENCY " designed with ERC20 Platform by Ethereum a focus on functionality and accessibility, even to those without a technical background. Cryptomagz is aiming to build a strong ecosystem with an emphasis on users-friendly features. Cryptomagz will simplify this by making it possible to send funds to others address with Myetherwallet. With ERC20 Platform by Ethereum the very first block the entire Cryptomagz ecosystem will be secure and easy to use for both the serious technophile to the average user.

## HOW THE CRYPTOMAGZ WORKS

Cryptomagz inherits and develops the Ethereum technology platform, with open source P2P accelerates all transactions quickly, minimises risk, enhances high security, and does not involve any third parties. Cryptomagz has a clearly transparent development roadmap. All Cryptomagz wallet versions will be fully up to date where customers can secure on wallets or trade seamlessly on the world exchange.

Our trading use Blockchain technology to ensure all investors enjoying safe and secure processing on our stable shared platform. Our decentralised platform removes third party involvement thus allowing absolute transparent deals between investors. We utilise popular Ethereum blockchain allowing other developers to join in seamlessly without worries.
